Test to confirm that your key fob is paired with your Light Grenade

USE AND CARE

The Light Grenade is easy to use. Just throw the unit into the area you wish to be illuminated. Press the key fob when you are ready to turn the light on. When you are sure an area is clear, you can deactivate the light with a second depression of the fob and then retrieve the unit in the dark. This allows you to never be illuminated and preserves your night vision.

The Light Grenade is robust and waterproof. Don't be afraid to throw it through windows or over long distances. The patented overmold process protects the unit and ensures hundreds of repeat uses. If the unit does become wet or dirty, gently clean it with a damp cloth. Do not use solvents or abrasive cleaners as they may damage the clear lenses.

BATTERY LIFE AND CHARGING

The Light Grenade has an internal rechargeable battery that be charged several hundred times. On a full charge, the unit provides approximately 1 hour of high intensity white light. Use the charge patch to recharge your unit using any standard USB charging system. When the unit is properly charging, a small red LED will illuminate. Once the unit is fully charged, the red LED will be extinguished and a small green LED will illuminate. You do not need to worry about over charging your unit.

WARRANTY STATEMENT

Night Angel Products LLC (manufacturer of Light Grenade) products are warranted to the original purchaser to be free from defect for one year from the date of purchase of the product. Night Angel Products LLC will repair or replace, at its discretion, any defective unit within two weeks of receipt of the defective product. This warranty is void if the unit in question has been visibly damaged by accident or misuse, or if the unit has been serviced or modified by anyone other than an authorized representative of Night Angel Products, LLC. This is the only warranty expressed or implied by Night Angel Products LLC. Specifically excluded from this warranty is damage resulting from improper installation or neglect in the operation of the unit or misunderstanding of the properties of the unit.

LIABILITIES

Any warranty implied under State Law shall be limited to one year from the original delivery to the original purchaser. Specifically excluded from Night Angel Products LLC liability is any damage resulting from acts of any deity, malicious mischief, vandalism, riots, wars, improper installation or neglect in the operation or maintenance of the unit or misunderstanding of the properties of the unit. Under no circumstances shall Night Angel Products LLC be obligated for consequential or other damages of any kind or description, losses or expenses in connection with or by reason of the use of, or inability to use this unit for any reason. The stated warranty provides the purchaser with specific legal rights, and there may be additional rights which vary from state to state. Some states, for example, do not allow exclusion of consequential damage.
