

OSCR360 Customer Feedback:

South Carolina Fire Marshal

"Oh there are so many uses for this. I can see us using this [OSCR360] in operations, fire prevention, fire investigations, pre-planning... Yeah this is great."

Florida Fire Marshal

"We all think it's great and it significantly adds to the work we're doing. It brings so much value to our agency"

California Fire Department

"What attracted our Fire Department to OSCR360 is basically its ability to capture an overall crime scene, fire scene or fire incident. It's easy to use, the user interface is fairly simple to use. Anybody with a few minutes of training can use the device in a matter of minutes."

Virginia Police Department

"We've been trying to bring it to any of the crimes that our detectives are investigating. So any significant scenes. Any death scenes, bank robberies, both the arson investigations – those were two houses that were burned."

Texas Fire Department

"I could definitely see ourselves using this. Everything about your software and camera is as quick as it can be."

Kentucky Fire Department

"You can put a big 'L' next to our name because we LOVE this! I understand it. It's what we've been looking for. You've sold me."

OSCR360

Built from the voice of Fire Investigators, Law Enforcement & District Attorneys, L-Tron's OSCR360 was developed to present your case in the courtroom and ultimately serve justice. The OSCR360 Software preserves and organizes your critical digital evidence, while the OSCR360 Equipment captures entire fire scenes in minutes.

Currently, OSCR is being used by: Fire Departments, Investigators, District Attorneys, Universities and Schools for course curriculum and active shooter planning, Environmental Safety and Protection, and by Federal, State, Local & Private agencies.

A proud New York State business, L-Tron's Law Enforcement offerings have been deployed in over 3,000 municipalities across 50 states nationwide.

We have been working with, and for, Law Enforcement for more than 20 years, specializing in purpose-built equipment developed from your voice.
